Standard Form 274 (Back)

- 2. The Reinsuring Company and the Direct Writing Company covenant and agree that, in the case of default on the payment bond for the "Amount of this Reinsurance," or more, the persons given a "right of action" or a "right to sue" on the payment bond by 40 U.S.C. 3133 may bring suit against the Reinsuring Company in the United States District Court for the district in which the contract described above is to be performed and executed for the "Amount of this Reinsurance" or, if the amount of the default is for less than the "Amount of this Reinsurance," for whatever the full amount of the default may be. The Reinsuring Company further covenants and agrees to comply with all requirements necessary to give such court jurisdiction, and to consent to determination of matters arising under this Reinsurance Agreement in accordance with the law and practice of the court. It is expressly understood by the parties that the rights, powers, and privileges given in this paragraph to persons are in addition to or supplemental to or in accordance with other rights, powers, and privileges which they might have under the statutes of the United States, any States, or the other laws of either, and should not be construed as limitations.
- 3. The Reinsuring Company and the Direct Writing Company further covenant and agree that the Reinsuring Company designates the process agent, appointed by the Direct Writing Company in the district in which the contract is to be performed and executed, as an agent to accept service of process in any suit instituted on this Reinsurance. Agreement, and that the process agent shall send, by registered mail, to the Reinsuring Company at its principal place of business shown above, a copy of the process.
- 4. The Reinsuring Company and the Direct Writing Company further covenant and agree that this Reinsurance Agreement is an integral part of the payment bond.

WITNESS

The Direct Writing Company and the Reinsuring Company, respectively, have caused this Agreement to be signed and impressed with their respective corporate seals by officers possessing the power to sign this instrument, and to be duly attested to by officers empowered thereto, on the day and date in Item 1A written opposite their respective names.

AGREEMENT:

- (a) The Direct Writing Company named above is bound as surety to the United States of America, on the bond described above, wherein the above-named is the principal. The bond is given for the protection of the United States and the Direct Writing Company has applied to the above Reinsuring Company to be reinsured and counter-secured in the amount shown opposite the name of the Reinsuring Company (referred to as the "Amount of this Reinsurance"), or for whatever amount less than the "Amount of this Reinsurance" the Direct Writing Company is liable to pay under or by virtue of the bond.
- (b) For a sum mutually agreed upon, paid by the Direct Writing Company to the Reinsuring Company which acknowledges its receipt, the parties to this Agreement covenant and agree to the terms and conditions of this agreement.

TERMS AND CONDITIONS:

The purpose and intent of this agreement is to guarantee and indemnify the United States against loss under the bond to the extent of the "Amount of this Reinsurance," or for any less sum than the "Amount of this Reinsurance," that is owing and unpaid by the Direct Writing Company to the United States.

THEREFORE:

- 1. If the Direct Writing Company fails to pay any default under the bond equal to or in excess of the "Amount of this Reinsurance," the Reinsuring Company covenants and agrees to pay to the United States, the obligee on the bond, the "Amount of this Reinsurance." If the Direct Writing Company fails to pay to the United States any default for a sum less than the "Amount of this Reinsurance," the Reinsuring Company covenants and agrees to pay to the United States the full amount of the default, or so much thereof that is not paid to the United States by the Direct Writing Company.
- 2. The Reinsuring Company further covenants and agrees that in case of default on the bond for the "Amount of this Reinsurance," or more, the United States may sue the Reinsuring Company for the "Amount of this Reinsurance" or for the full amount of the default when the default is less than the "Amount of this Reinsurance."

WITNESS

The Direct Writing Company and the Reinsuring Company, respectively, have caused this Agreement to be signed and impressed with their respective corporate seals by officers possessing power to sign this instrument, and to be duly attested to by officers empowered thereto, on the day and date above -- written opposite their respective names.

INSTRUCTIONS

This form is to be used in cases where it is desired to cover the excess of a Direct Writing Company's underwriting limitation by reinsurance instead of co-insurance on bonds running to the United States except Miller Act Performance and Payment Bonds. See FAR (48 CFR) 28.202-1 and 53.228(j) and 31 CFR 223.11(b)(1). If this form is used to reinsure a bid bond, the "Penal Sum of Bond" and "Amount of this Reinsurance" may be expressed as percentage of the bid provided the actual amounts will not exceed the companies' respective underwriting limitations.

Execute and file this form as follows:

Original and copies (as specified by the bond-approving officer), signed and sealed, shall accompany the bond or be filed within the time period shown in the bid or proposal.

One carbon copy, signed and sealed, shall accompany the Direct Writing Company's quarterly Schedule of Excess Risks filed with the Department of Treasury.

Other copies may be prepared for the use of the Direct Writing Company and Reinsuring Company. Each Reinsuring Company should use a separate form.

ARCHITECT-ENGINEER QUALIFICATIONS

OMB No.: 9000-0157 Expires: 10/31/2014

PAPERWORK REDUCTION ACT STATEMENT: Public reporting burden for this collection of information is estimated to average 29 hours (25 hours for part 1 and 4 hours for Part 2) per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspects of this collection of information, including suggestions for reducing this burden, to U.S. General Services Administration, Regulatory Secretariat (MVCB)/IC 9000-0157, Office of Governmentwide Acquisition Policy, 1800 F Street, NW, Washington, DC 20405.

PURPOSE

Federal agencies use this form to obtain information from architect-engineer (A-E) firms about their professional qualifications. Federal agencies select firms for A-E contracts on the basis of professional qualifications as required by 40 U.S.C. chapter 11, Selection of Architects Engineers, and Part 36 of the Federal Acquisition Regulation (FAR).

The Selection of Architects and Engineers statute requires the public announcement of requirements for A-E services (with some exceptions provided by other statutes), and the selection of at least three of the most highly qualified firms based on demonstrated competence and professional qualifications according to specific criteria published in the announcement. The Act then requires the negotiation of a contract at a fair and reasonable price starting first with the most highly qualified firm.

The information used to evaluate firms is from this form and other sources, including performance evaluations, any additional data requested by the agency, and interviews with the most highly qualified firms and their references.

GENERAL INSTRUCTIONS

Part I presents the qualifications for a specific contract.

Part II presents the general qualifications of a firm or a specific branch office of a firm. Part II has two uses:

- 1. An A-E firm may submit Part II to the appropriate central, regional or local office of each Federal agency to be kept on file. A public announcement is not required for certain contracts, and agencies may use Part II as a basis for selecting at least three of the most highly qualified firms for discussions prior to requesting submission of Part I. Firms are encouraged to update Part II on file with agency offices, as appropriate, according to FAR Part 36. If a firm has branch offices, submit a separate Part II for each branch office seeking work.
- Prepare a separate Part II for each firm that will be part of the team proposed for a specific contract and submitted with Part I. If a firm has branch offices, submit a separate Part II for each branch office that has a key role on the team.

INDIVIDUAL AGENCY INSTRUCTIONS

Individual agencies may supplement these instructions. For example, they may limit the number of projects or number of

pages submitted in Part I in response to a public announcement for a particular project. Carefully comply with any agency instructions when preparing and submitting this form. Be as concise as possible and provide only the information requested by the agency.

DEFINITIONS

Architect-Engineer Services: Defined in FAR 2.101.

Branch Office: A geographically distinct place of business or subsidiary office of a firm that has a key role on the team.

Discipline: Primary technical capabilities of key personnel, as evidenced by academic degree, professional registration, certification, and/or extensive experience.

Firm: Defined in FAR 36.102.

Key Personnel: Individuals who will have major contract responsibilities and/or provide unusual or unique expertise.

SPECIFIC INSTRUCTIONS

Part I - Contract-Specific Qualifications

Section A. Contract Information.

- Title and Location. Enter the title and location of the contract for which this form is being submitted, exactly as shown in the public announcement or agency request.
- 2. Public Notice Date. Enter the posted date of the agency's notice on the Federal Business Opportunity website (FedBizOpps), other form of public announcement or agency request for this contract.
- Solicitation or Project Number. Enter the agency's solicitation number and/or project number, if applicable, exactly as shown in the public announcement or agency request for this contract.

Section B. Architect-Engineer Point of Contact.

4-8. Name, Title, Name of Firm, Telephone Number, Fax (Facsimile) Number and E-mail (Electronic Mail) Address. Provide information for a representative of the prime contractor or joint venture that the agency can contact for additional information.

Standard Form 330 (Page 2 of Instructions)

Section C. Proposed Team.

9-11. Firm Name, Address, and Role in This Contract. Provide the contractual relationship, name, full mailing address, and a brief description of the role of each firm that will be involved in performance of this contract. List the prime contractor or joint venture partners first. If a firm has branch offices, indicate each individual branch office that will have a key role on the team. The named subcontractors and outside associates or consultants must be used, and any change must be approved by the contracting officer. (See FAR Part 52 Clause "Subcontractors and Outside Associates and Consultants (Architect-Engineer Services)".) Attach an additional sheet in the same format as Section C if needed.

Section D. Organizational Chart of Proposed Team.

As an attachment after Section C, present an organizational chart of the proposed team showing the names and roles of all key personnel listed in Section E and the firm they are associated with as listed in Section C.

Section E. Resumes of Key Personnel Proposed for This Contract.

Complete this section for each key person who will participate in this contract. Group by firm, with personnel of the prime contractor or joint venture partner firms first. The following blocks must be completed for each resume:

- 12. Name. Self-explanatory.
- 13. Role in This Contract. Self-explanatory.
- 14. Years Experience. Total years of relevant experience (block 14a), and years of relevant experience with current firm, but not necessarily the same branch office (block 14b).
- 15. Firm Name and Location. Name, city and state of the firm where the person currently works, which must correspond with one of the firms (or branch office of a firm, if appropriate) listed in Section C.
- 16. Education. Provide information on the highest relevant academic degree(s) received. Indicate the area(s) of specialization for each degree.
- 17. Current Professional Registration. Provide information on current relevant professional registration(s) in a State or possession of the United States, Puerto Rico, or the District of Columbia according to FAR Part 36.
- 18. Other Professional Qualifications. Provide information on any other professional qualifications relating to this contract, such as education, professional registration, publications, organizational memberships, certifications, training, awards, and foreign language capabilities.

19. Relevant Projects. Provide information on up to five projects in which the person had a significant role that demonstrates the person's capability relevant to her/his proposed role in this contract. These projects do not necessarily have to be any of the projects presented in Section F for the project team if the person was not involved in any of those projects or the person worked on other projects that were more relevant than the team projects in Section F. Use the check box provided to indicate if the project was performed with any office of the current firm. If any of the professional services or construction projects are not complete, leave Year Completed blank and indicate the status in Brief Description and Specific Role (block (3)).

Section F. Example Projects Which Best Illustrate Proposed Team's Qualifications for This Contract.

Select projects where multiple team members worked together, if possible, that demonstrate the team's capability to perform work similar to that required for this contract. Complete one Section F for each project. Present ten projects, unless otherwise specified by the agency. Complete the following blocks for each project:

- Example Project Key Number. Start with "1" for the first project and number consecutively.
- Title and Location. Title and location of project or contract. For an indefinite delivery contract, the location is the geographic scope of the contract.
- 22. Year Completed. Enter the year completed of the professional services (such as planning, engineering study, design, or surveying), and/or the year completed of construction, if applicable. If any of the professional services or the construction projects are not complete, leave Year Completed blank and indicate the status in Brief Description of Project and Relevance to This Contract (block 24).
- 23a. Project Owner. Project owner or user, such as a government agency or installation, an institution, a corporation or private individual.
- 23b. Point of Contact Name. Provide name of a person associated with the project owner or the organization which contracted for the professional services, who is very familiar with the project and the firm's (or firms') performance.
 - 23c. Point of Contact Telephone Number Self-explanatory.
- 24. Brief Description of Project and Relevance to This Contract. Indicate scope, size, cost, principal elements and special features of the project. Discuss the relevance of the example project to this contract. Enter any other information requested by the agency for each example project.

STANDARD FORM 330 (REV. 3/2013) PAGE 2 OF INSTRUCTIONS

Standard Form 330 (Page 3 of Instructions)

25. Firms from Section C Involved with This Project. Indicate which firms (or branch offices, if appropriate) on the project team were involved in the example project, and their roles. List in the same order as Section C.

Section G. Key Personnel Participation in Example Projects.

This matrix is intended to graphically depict which key personnel identified in Section E worked on the example projects listed in Section F. Complete the following blocks (see example below).

26. and 27. Names of Key Personnel and Role in This Contract. List the names of the key personnel and their proposed roles in this contract in the same order as they appear in Section E

28. Example Projects Listed in Section F. In the column under each project key number (see block 29) and for each key person, place an "X" under the project key number for participation in the same or similar role.

29. Example Projects Key. List the key numbers and titles of the example projects in the same order as they appear in Section

Section H. Additional Information.

30. Use this section to provide additional information specifically requested by the agency or to address selection criteria that are not covered by the information provided in Sections A-G.

Section I. Authorized Representative.

31. and 32. Signature of Authorized Representative and Date. An authorized representative of a joint venture or the prime contractor must sign and date the completed form. Signing attests that the information provided is current and factual, and that all firms on the proposed team agree to work on the project. Joint ventures selected for negotiations must make available a statement of participation by a principal of each member of the joint venture.

33. Name and Title. Self-explanatory.

Part II - General Qualifications

See the "General Instructions" on page 1 for firms with branch offices. Prepare Part II for the specific branch office seeking work if the firm has branch offices.

 Solicitation Number. If Part II is submitted for a specific contract, insert the agency's solicitation number and/or project number, if applicable, exactly as shown in the public announcement or agency request.

2a-2e. Firm (or Branch Office) Name and Address. Self-explanatory.

- Year Established. Enter the year the firm (or branch office, if appropriate) was established under the current name.
- DUNS Number. Insert the Data Universal Numbering System number issued by Dun and Bradstreet Information Services. Firms must have a DUNS number. See FAR Part 4.6.
 - Ownership.
- a. Type. Enter the type of ownership or legal structure of the firm (sole proprietor, partnership, corporation, joint venture, etc.).
- b. Small Business Status. Refer to the North American Industry Classification System (NAICS) code in the public announcement, and indicate if the firm is a small business according to the current size standard for that NAICS code (for example, Engineering Services (part of NAICS 541330), Architectural Services (NAICS 541310), Surveying and Mapping Services (NAICS 541370)). The small business categories and the internet website for the NAICS codes appear in FAR Part 19. Contact the requesting agency for any questions. Contact your local U.S. Small Business Administration office for any questions regarding Business Status.
- 6a-6c. Point of Contact. Provide this information for a representative of the firm that the agency can contact for additional information. The representative must be empowered to speak on contractual and policy matters.
- 7. Name of Firm. Enter the name of the firm if Part II is prepared for a branch office.
- 8a-8c. Former Firm Names. Indicate any other previous names for the firm (or branch office) during the last six years. Insert the year that this corporate name change was

effective and the associated DUNS Number. This information is used to review past performance on Federal contracts.

- 9. Employees by Discipline. Use the relevant disciplines and associated function codes shown at the end of these instructions and list in the same numerical order. After the listed disciplines, write in any additional disciplines and leave the function code blank. List no more than 20 disciplines. Group remaining employees under "Other Employees" in column b. Each person can be counted only once according to his/her primary function. If Part II is prepared for a firm (including all branch offices), enter the number of employees by disciplines in column c(1). If Part II is prepared for a branch office, enter the number of employees by discipline in column c(2) and for the firm in column c(1).
- 10. Profile of Firm's Experience and Annual Average Revenue for Last 5 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the experience categories which most accurately reflect the firm's technical capabilities and project experience. Use the relevant experience categories and associated profile codes shown at the end of these instructions, and list in the same numerical order. After the listed experience categories, write in any unlisted relevant project experience categories and leave the profile codes blank. For each type of experience, enter the appropriate revenue index number to reflect the professional services revenues received annually (averaged over the last 5 years) by the firm or branch office for performing that type of work. A particular project may be identified with one experience category or it may be broken into components, as best reflects the capabilities and types of work performed by the firm. However, do not double count the revenues received on a particular
- 11. Annual Average Professional Services Revenues of Firm for Last 3 Years. Complete this block for the firm or branch office for which this Part II is prepared. Enter the appropriate revenue index numbers to reflect the professional services revenues received annually (averaged over the last 3 years) by the firm or branch office. Indicate Federal work (performed directly for the Federal Government, either as the prime contractor or subcontractor), non-Federal work (all other domestic and foreign work, including Federally-assisted projects), and the total. If the firm has been in existence for less than 3 years, see the definition for "Annual Receipts" under FAR 19.101.
- 12. Authorized Representative. An authorized representative of the firm or branch office must sign and date the completed form. Signing attests that the information provided is current and factual. Provide the name and title of the authorized representative who signed the form.

This is to certify that the undersigned, individually, and as an authorized representative of the Contractor, has examined this termination settlement proposal and that, to the best knowledge and belief of the undersigned:

(a) AS TO THE CONTRACTOR'S OWN CHARGES. The proposed settlement (exclusive of charges set forth in Item 14) and supporting schedules and explanations have been prepared from the books of account and records of the Contractor in accordance with recognized commercial accounting practices; they include only those charges allocable to the terminated portion of this contract; they have been prepared with knowledge that they will, or may, be used directly or indirectly as the basis of settlement of a termination settlement proposal or claim against an agency of the United States; and the charges as stated are fair and reasonable.

(b) AS TO THE SUBCONTRACTORS' CHARGES. (1) The Contractor has examined, or caused to be examined, to an extent it considered adequate in the circumstances, the termination settlement proposals of its immediate subcontractors (exclusive of proposals filed against these immediate subcontractors by their subcontractors); (2) The settlements on account of immediate subcontractors own charges are fair and reasonable, the charges are allocable to the terminated portion of this contract, and the settlements were negotiated in good faith and are not more favorable to its immediate subcontractors than those that the Contractor would make if reimbursement by the Government were not involved; (3) The Contractor has received from all its immediate subcontractors appropriate certificates with respect to their termination settlement proposals, which certificates are substantially in the form of this certificate; and (4) The Contractor has no information leading it to doubt (i) the reasonableness of the settlements with more remote subcontractors or (ii) that the charges for them are allocable to this contract. Upon receipt by the Contractor of amounts covering settlements with its immediate subcontractors, the Contractor will pay or credit them promptly with the amounts so received, to the extent that it has not previously done so. The term "subcontractors," as used above, includes suppliers.

NOTE: The Contractor shall, under conditions stated in FAR 15.403, be required to submit a Certificate of Current Cost or Pricing Data (see FAR 15.406-2 and 15.408 Table 15-2).

INSTRUCTIONS

- 1. This settlement proposal should be submitted to the contracting officer, if you are a prime contractor, or to your customer, if you are a subcontractor. The term contract as used hereinafter includes a subcontract or a purchase order.
- 2. Proposals that would normally be included in a single settlement proposal, such as those based on a series of separate orders for the same item under one contract should be consolidated wherever possible, and must not be divided in such a way as to bring them below \$10,000.
- 3. You should review any aspects of your contract relating to termination and consult your customer or contracting officer for further information. Government regulations pertaining to the basis for determining a fair and reasonable termination settlement are contained in Part 49 of the Federal Acquisition Regulation. Your proposal for fair compensation should be prepared on the basis of the costs shown by your accounting records. Where your costs are not so shown, you may use any reasonable basis for estimating your costs which will provide for fair compensation for the preparations made and work done for the terminated portion of the contract, including a reasonable profit on such preparation and work.
- 4. Generally your settlement proposal may include under Items 2, 3, and 4, the following:
 - a. COSTS Costs incurred which are rea-

- sonably necessary and are properly allocable to the terminated portion of your contract under recognized commerical accounting practices, including direct and indirect manufacturing, selling and distribution, administrative, and other costs and expenses incurred.
- b. SETTLEMENT WITH SUBCONTRACTORS Reasonable settlements of proposals of subcontractors allocable to the terminated portion of the subcontract. Copies of such settlements will be attached hereto.
- c. SETTLEMENT EXPENSES Reasonable costs of protecting and preserving termination inventory in your possession and preparing your proposal.
- d. PROFIT A reasonable profit with respect to the preparations you have made and work you have actually done for the terminated portion of your contract. No profit should be included for work which has not been done, nor shall profit be included for settlement expenses, or for settlement with subcontractors.
- 5. If you use this form, your total charges being proposed (line 5), must be less than \$10,000. The Government has the right to examine your books and records relative to this proposal, and if you are a subcontractor, your customer must be satisfied with your proposal.

SECTION III - AGREEMENT OF APPLICANT

IN CONSIDERATION OF PARTIAL PAYMENT THAT MAY BE MADE, THE APPLICANT AGREES AS FOLLOWS:

(a) Repayment of Excess. If any partial payment made to the Contractor is in excess of the amount finally determined to be due on its termination settlement proposal or claim, the Contractor shall repay the excess to the Government upon demand together with interest at the rate established by the Secretary of the Treasury under 50 U.S.C. (app.) 1215(b)(2). Interest shall be computed for the period from the date of the excess payment to the date the excess is repaid. Interest shall not be charged however, for any (1) excess payment due to a reduction in the Contractor's proposal or claim because of retention or other disposition of termination inventory, until 10 days after the date of the retention or disposition, or any later date determined by the Contractor Officer because of the circumstances, or for (2) overpayment under cost-reimbursement research and development contracts (without profit or fee to the Contractor) if the overpayments are repaid to the Government within 30 days after demand.

(b) Prompt Settlement of Proposal. The applicant will make every effort to expedite final settlement of the termination settlement proposal and any proposals of its subcontractors.

INSTRUCTIONS

GENERAL - All dollar amounts must be shown in whole dollars, rounded using a consistent methodology (e.g., always round up, always round m, always round to the nearest dollar). All line item numbers not included in the instructions below are self-explanatory

SECTION I - IDENTIFICATION INFORMATION. Complete items 1 through 8b in accordance with the following instructions. Item 1. TO - Enter the name and address of the cognizant Contract Administration Office (the office administering the contract).

PAYING OFFICE - Enter the designation of the paying office, as indicated on the contract.

Item 2. FROM - CONTRACTOR'S NAME AND ADDRESS/ZIP CODE - Enter the name and mailing address of the contractor. If applicable, the division of the company performing the contract should be entered immediately following the contractor's name

Item 3. Enter an "X" in the appropriate block to indicate whether or not the contractor is a small business concern.

Item 4. Enter the contract number, including the task or delivery order number if applicable. Progress payment requests under

individual orders shall be submitted as if the order constituted a separate contract, unless otherwise specified in this contract (FAR 52.232-16(m)).

Item 5. Enter the total contract price in accordance with the following (See FAR 32.501-3):

- (1) Under firm-fixed-price contracts, the contract price is the current amount fixed by the contract plus the not-to-exceed amount for any unpriced modifications.

 (2) If the contract is redeterminable or subject to economic price adjustment, the contract price is the initial price until modified
- (2) If the Contract is redeferminate or subject to economic place adjustment, are contract place is a manufacture.

 (3) Under a fixed-price incentive contract, the contract price is the target price by the not-to-exceed amount for any unpriced modifications. However, if the contractor's properly incurred costs exceed the target price, the contracting officer may provisionally increase the price up to the ceiling or maximum price.
- (4) Under a letter contract, the contract price is the maximum amount obligated by the contract as modified
- (5) Under an unpriced order issued against a basic ordering agreement, the contract price is the maximum amount obligated by the order, as modified.

 (6) Any portion of the contract specifically providing for reimbursement of costs only shall be excluded from the contract price.

Item 6A. PROGRESS PAYMENT RATES - Enter the 2-digit progress payment percentage rate shown in paragraph (a) (1) of the progress payment

Item 6B. LIQUIDATED RATE - Enter the current progress payment liquidation rate prescribed in the contract (FAR 52.232-16(b)) using three digits - Example: show 80% as 800 - show 72.3% as 723. Decimals between tenths must be rounded up to the next highest tenth (not necessarily the nearest tenth), since rounding down would produce a rate below the minimum rate calculated (FAR 32.503-10(b) (4)).

Item 7. DATE OF INITIAL AWARD - Enter the four digit calendar year. Use two digits to indicate the month. Example: Show January 2005 as

Item 8A. PROGRESS PAYMENT REQUEST NUMBER - Enter the number assigned to this request. All requests under a single contract must be numbered consecutively, beginning with 1. Each subsequent request under the same contract must continue in sequence, using the same series of numbers without omission.

Item 8B. Enter the date of the request.

SECTION II - STATEMENT OF COSTS UNDER THIS CONTRACT.

Date. In the space provided in the heading enter the date through which costs have been accumulated from inception for inclusion in this request. This date is applicable to item entries in Sections II and III.

Cost Basis. In accordance with FAR 52.232-16 (a) (1), the basis for progress payments is the contractor's total costs incurred under this contract, whether or not actually paid, plus financing payments to subcontractors (computed in accordance with FAR 52.232-16(j)), less the sum of all previous progress payments made by the Government under this contract.

Item 11. Costs eliqible for progress payments under the progress payments clause. Compute the eliqible costs in accordance with the requirements at FAR 52.232-16(a)(1) through (4). First articles: Before first article approval, the acquisition of materials or components for, or the commencement of production of, the balance of the contract quantity is at the sole risk of the contractor. Before the first article approval, the costs thereof shall not be allowable for purposes of progress payments. (See FAR 52.209-3(g) and FAR 52.209-4(h)).

Item 12a. Enter the total contract costs incurred to date; if the actual amount is not known, enter the best possible estimate. If an estimate is used, enter (E) after the amount.

Item 12b. Enter the estimated cost to complete the contract. The contractor shall furnish estimates to complete that have been developed or updated within six months of the date of the progress payment request. The estimates to complete shall represent the contractor's best estimate of total costs to complete all remaining contract work required under the contract. The estimates shall include sufficient detail to permit Government

Items 14a through 14e. Include only financing payments (progress payments, performance-based payments, and commercial item financing) on subcontracts which are in accordance with the requirements of FAR 52.232-16(j). Do not include interim payments under a cost reimbursement

Item 14a. Enter only financing payments actually paid.

Item 14b. Enter total financing payments recouped from subcontractors

Item 14d. Include the amount of unpaid subcontract progress payment billings which have been approved by the contractor for the current payment in the ordinary course of business

SECTION III - ADVANCE PAYMENTS/ACCEPTED ITEMS. This Section must be completed only if the contractor has received advance payments this contract, or if the items have been delivered, invoiced and accepted as of the date indicated in the heading of Section II above EXCEPTION: Item 27 must be completed for all progress payment requests where the line 12c amount exceeds the amount on Line 5.

Item 20a. Of the costs reported in Item 11, compute and enter only costs which are properly allocable to items delivered, invoiced and accepted to the applicable date. In order of preference, these costs are to be computed on the basis of one of the following: (a) The actual unit cost of items delivered, giving proper consideration to the deferment of the starting load costs or (b) projected unit costs (based on experienced costs plus the estimated cost to complete the contract), where the contractor maintains cost data which will clearly establish the reliability of such estimates

Item 23. Enter total progress payments liquidated (monies recouped from the contractor on prior billings) and those to be liquidated from billings submitted but not yet paid (monies to be recouped from the contractor on submitted but unpaid billings

CERTIFICATION

Paragraph (f). If no financial information has been provided previously in connection with this contract, insert "N/A" in the submission date block and the financial information date block. Otherwise, insert respectively, the "as of" date of the financial information submitted last and the date of the last

GENERAL INFORMATION INSTRUCTIONS

- 1. This form collects data on the participation of small disadvantaged business concerns in contracts that contain the clause at FAR 52.219-25, Small Disadvantaged Business Participation Program Disadvantaged Status and Reporting.
- 2. Submit this report to the contracting officer. If your organization is required to report subcontracting data under an individual subcontracting plan, you may attach this report to the final SF 294, Subcontracting Report for Individual Contracts, submitted under the contract.
- 3. Report in whole dollars.

SPECIFIC INSTRUCTIONS

Block 3.Report the total dollar amount of participation of small disadvantaged business concerns under the contract cited in Block 2. Participation may be through subcontracting, teaming arrangement, joint ventures, or as the prime contractor (provided the prime contractor waived its right to a price evaluation adjustment).

Block 4.Report the participation, if any, by small disadvantaged business concerns in this contract at the prime contract level. All prime contract dollars must be reported under the North American Industrial Classification System (NAICS) assigned to the prime contract. Report the dollar amount and percentage of the total contract value.

Block 5.Report, by NAICS Industry Subsector, as determined by the Department of Commerce, the participation by small disadvantaged business concerns in this contract at the subcontract level. Report the dollar amount and percentage of the total contract value.

Block 6. Provide the name, telephone number, and e-mail address of the individual who can answer questions related to this report.

PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ORGANIZATION. RETURN COMPLETED FORM TO YOUR RESPECTIVE COGNIZANT SECURITY OFFICE.

This DEPARTMENT OF DEFENSE SECURITY AGREEMENT (hereinafter called the Agreement), entered into this day of
,by and between THE UNITED STATES OF AMERICA through the Defense Security Service
acting for the Department of Defense and other governmental User Agencies (hereinafter called the Government), and
(hereinafter called the Contractor), which is:
(1) a corporation organized and existing under the laws of the state of
(2) a partnership consisting of
(3) an individual trading as
with its principal office and place of business at (Street, City, State and ZIP Code)

WITNESSETH THAT:

WHEREAS, the Government has in the past purchased or may in the future purchase from the Contractor supplies or services, which are required and necessary to the national security of the United States; or may invite bids or request quotations on proposed contracts for the purchase of supplies or services, which are required and necessary to the national security of the United States; and

WHEREAS, it is essential that certain security measures be taken by the Contractor prior to and after being accorded access to classified information; and

WHEREAS, the parties desire to define and set forth the precautions and specific safeguards to be taken by the Contractor and the Government in order to preserve and maintain the security of the United States through the prevention of improper disclosure of classified information, sabotage, or any other acts detrimental to the security of the United States;

NOW, THEREFORE, in consideration of the foregoing and of the mutual promises herein contained, the parties hereto agree as follows.

Section I - SECURITY CONTROLS

(A) The Contractor agrees to provide and maintain a system of security controls within the organization in accordance with the requirements of the "National Industrial Security Program Operating Manual," DoD 5220.22-M (hereinafter called the Manual) attached hereto and made a part of this agreement, subject, however, (i) to any revisions of the Manual required by the demands of national security as determined by the Government, notice of which shall be furnished to the Contractor, and (ii) to mutual agreements entered into by the parties in order to adapt the Manual to the Contractor's business and necessary procedures thereunder. In order to place in effect such security controls, the Contractor further agrees to prepare Standard Practice Procedures for internal use, such procedures to be consistent with the Manual. In the event of any inconsistency between the Manual, as revised, and the Contractor's Standard Practice Procedures, the Manual shall control.

- (B) The Government agrees that it shall indicate when necessary, by security classification (TOP SECRET, SECRET, or CONFIDENTIAL), the degree of importance to the national security of information pertaining to supplies, services, and other matters to be furnished by the Contractor to the Government or by the Government to the Contractor, and the Government shall give written notice of such security classification to the Contractor and of any subsequent changes thereof; provided, however, that matters requiring security classification will be assigned the least restricted security classification consistent with proper safeguarding of the matter concerned, since overclassification causes unnecessary operational delays and depreciates the importance of correctly classified matter. Further, the Government agrees that when Atomic Energy information is involved it will, when necessary, indicate by a marking additional to the classification marking that the information is "RESTRICTED DATA." The "Department of Defense Contract Security Classification Specification, regrading, and declassification specifications are documented and conveyed to the Contractor.
- (C) The Government agrees, on written application, to grant personnel security clearances to eligible employees of the Contractor who require access to information classified TOP SECRET, SECRET, or CONFIDENTIAL.
- (D) The Contractor agrees to determine that any subcontractor, subbidder, individual, or organization proposed for the furnishing of supplies or services which will involve access to classified information, has been granted an appropriate facility security clearance, which is still in effect prior to according access to such classified information.

Section II - SECURITY REVIEWS

Designated representatives of the Government responsible for reviews pertaining to industrial plant security shall have the right to review, at reasonable intervals, the procedures, methods, and facilities utilized by the Contractor in complying with the requirements of the terms and conditions of the Manual. Should the Government, through its authorized representative, determine that the Contractor's security methods, procedures, or facilities do not comply with such requirements, it shall submit a written report to the Contractor advising of the deficiencies.

Section III - MODIFICATION

Modification of this Agreement may be made only by written agreement of the parties hereto. The Manual may be modified in accordance with Section I of this Agreement.

Section IV - TERMINATION

This Agreement shall remain in effect until terminated through the giving of 30 days' written notice to the other party of intention to terminate; provided, however, notwithstanding any such termination, the terms and conditions of this Agreement shall continue in effect so long as the Contractor possesses classified information.

Section V - PRIOR SECURITY AGREEMENTS

As of the date hereof, this Agreement replaces and succeeds

any and all prior security or secrecy agreements, understandings, and representations, with respect to the subject matter included herein, entered into between the Contractor and the Government; provided, that the term "security or secrecy agreements, understandings, and representations: shall not include agreements, understandings, and representations contained in contracts for the furnishing of supplies or services to the Government which were previously entered into between the Contractor and the Government.

Section VI - SECURITY COSTS

This Agreement does not obligate Government funds, and the Government shall not be liable for any costs or claims of the Contractor arising out of this Agreement or instructions issued hereunder. It is recognized, however, that the parties may provide in other written contracts for security costs, which may be properly chargeable thereto.

APPENDIX—COST ACCOUNTING STANDARDS PREAMBLES AND REGULATIONS*

PART III—PREAMBLES PUBLISHED UNDER THE FAR SYSTEM

PART III—PREAMBLES PUBLISHED UNDER THE FAR SYSTEM

PART III—PREAMBLES PUBLISHED UNDER THE FAR SYSTEM

PREAMBLE A TO 30.404, CAPITALIZATION OF TANGIBLE ASSETS

This final rule, in Federal Acquisition Circular (FAC) 84-38, revises 30.404-40(b)(1), 30.404-60(a)(1), and 30.404-60(a)(1)(i).

SUMMARY

Section 30.404 requires that contractors have written policies for capitalization which must include a minimum acquisition cost criterion of \$1000. The standard is being amended to raise the threshold to \$1500. The purpose of the change is to permit contractors to adopt practices appropriate in today's economy.

<u>Effective Date</u>: The effective date of this modification is September 19, 1988.

BACKGROUND

<u>Supplementary Information</u>. The CAS Board established the minimum acquisition cost criterion for capitalization at \$500 when it originally promulgated CAS 404 in 1973. The Board's initial \$500 limitation encompassed the practices of 97 percent of the companies whose Disclosure Statements were filed with the Board. In the promulgation comments to the Standard, the Board recommended that the special limits in the standard "...may need to be reviewed in the future...(and will be revised) promptly if developments warrant a change."

On March 3, 1980, the Board did revise the limitation upward to \$1000 as it recognized that circumstances had changed significantly since the promulgation of Standard 404. The Board found that the performance of several official indices showed increases from 60 to 80 percent, and a survey of companies not influenced by the limitation of Standard 404 showed a significant number using \$1000 as the minimum criterion for capitalization.

The impact of inflation has continued over the 7 years since 1980, although at a lower level. Indices from the Commerce Department for the implicit price deflators on nonresidential structures and machinery and equipment showed increases from 30 to 35 percent over the period 1979 through 1985. When applied to the current \$1000 criterion, this yields values from \$1300 to \$1350. In addition, economic projections showed inflation levels rising slightly from 1986 through 1989. Consequently, this change increases the minimum acquisition cost criterion for capitalization of tangible capital assets to \$1500 to cover both actual and projected price increases.

The amendment which is now being promulgated is derived directly from the proposed rule which was published in the *Federal Register* on July 9, 1986 (51 FR 24971), with an invitation for interested parties to submit comments.

Four letters of comment were received on the July 9, 1986, proposal. Only one letter directly addressed the appropriateness of the proposed revisions to 30.404. That comment stated that inflation should not be the motivating factor in determining significant costs for capitalization, but rather materiality of the cost should be the factor in determining significance.

The CAS Board's comments in the CAS 404 preamble and its action to increase the capitalization threshold based upon inflation, discussed above, indicate that the Board considered the materiality

and significance of asset acquisition cost to be directly related to the level of prices in the economy. The Defense Acquisition Regulations Council and the Civilian Agency Acquisition Council agree with the CAS Board's outlook on this matter and expect the increase in capitalization threshold provided in this modification to 30.404 will be beneficial to Government contract costing by not requiring capitalization of assets that are of insignificant value.

PREAMBLE A TO 30.416, ACCOUNTING FOR INSURANCE COSTS

This final rule, in Federal Acquisition Circular (FAC) 84-38, revises 30.416-50(a)(3)(ii).

SUMMARY

FAR 30.416-50(a)(3)(ii) revisions delete the requirement to use state rates in discounting certain self-insured losses to present value.

<u>Effective Date</u>: The effective date of this modification is September 19, 1988.

This modification shall be followed by each contractor on or after the start of its next cost accounting period, beginning after receipt of a contract to which this modification is applicable.

BACKGROUND

<u>Supplementary Information</u>. Section 30.416 provides that the amount of insurance cost to be assigned to a cost accounting period is the projected average loss (PAL) for that period plus insurance administration expense in that period. The PAL is either the insurance premium, where the risk of loss is covered by the purchase of insurance, or a self-insurance charge, where the exposure to risk is not covered by the purchase of insurance. Where it is probable that the actual amount of losses will not differ significantly from the PAL, the actual amount of losses may be considered to represent the PAL for the period as the self-insurance charge.

In self-insurance, when the actual amount of losses is being used to represent the PAL, contractors are to discount those losses to present value, where payments to the claimant will not take place for over a year after the loss occurs. If a state provides a discount rate for computing lump-sum settlements, 30.416 requires that the state rate be used for computing present value. Otherwise, the Pub. L. 92-41 Treasury rate is to be used. The differing rates specified by the states, and the lack of specified rates in some states, result in inconsistent treatment of self-insurance charges on defense contracts.

The purpose of requiring a present value computation for contract cost accounting purposes is to recognize the time value of money for funds advanced to and used by the contractor for extended periods before being disbursed. The Pub. L. 92-41 Treasury rate is generally specified for this purpose. The majority of state laws covering worker's compensation insurance specify a rate in the range of 3-6 percent. The use of a low rate results in a larger settlement than would use of a current money market rate. The purpose of low state rates is to discourage lump-sum settlements. This purpose is unrelated to that of fair valuation for contract cost accounting purposes. The use of state rates may produce inaccurate measures of present values and will most certainly create inconsistencies in the pricing of

contracts due to the lack of consistent determinations of present values. Consequently, the proposed rule, published in the *Federal Register* on July 8, 1986 (51 FR 24788), deleted the reference to state discount rates at 30.416-50(a)(3)(ii) and required use of the Pub. L. 92-41 Treasury rate in all cases.

Four comments were received in response to the proposed rule. None of the comments directly challenged the appropriateness of the proposed revision. Therefore, no changes were made to the proposed rule as a result of the public comments.
